I want to be part of a team in which I could develop and learn new technological stack. Switch to JS after more, then 10 years 1C development. I have good developer skills and motivations.

I worked as System Administrator, Business analytics, DataBase programmer, Support Engineer and other technical specialist. I was setting up the different equipments, programs, servers and services.

Projects

1. This is first team project on course HTML+CSS. Landing site for restaurant. A website with a responsive layout. Role: Team Lead, developer Build project on github, check for build errors and live page performance.
   Restaurant MIMIHO ..... [HTML, CSS, JavaScript, Vite]
2. Pet-project on addition course JavaScript. Simple task for any information about banks. Role: Team Lead, developer
   Mortgage - bank info ..... [HTML, CSS, JavaScript, Parcel]
3. Siple application on JavaScript for generations any combinations world. The application is used in Crytoindustry, a volunteer project
   CoDeGenerator ..... [HTML, CSS, JavaScript, Parcel]
4. Create the front-end part of the application for searching and viewing images by keyword
   GoIT-js-hw-11 ..... [HTML, CSS, JavaScript, Parcel]
5. Work with Telegram bot API. Add any functions: menu, answers, mini game, send and receive any format data, work with any keyboards.
   Telegram Bot - Node.js ..... [Telegram-bot-api, Express, PostgreSQL, sequelize]
6. Front-end written on React + TypeScript + Axios + Mobx. Back-end written on Express - work with MongoDB, jwt-tokens, email-autorotation request.
   REST API Autorization (Back-end) ... [Express, jsonwebtoken, mongoose, nodemailer, ...]
   REST API Autorization (Front-end) ..... [REACT, TypeScript, Axios, Mobx]
7. Simple test project for demonstrating the skills of the Front-end and Back-end part. Try to used different technology - cors, jsonwebtoken, express-validator
   BandaPixels-REST-API (Back-end) ..... [Express, cors, jsonwebtoken, express-validator, ...]
   BandaPixels-REACT (Front-end) ..... [REACT, Axios, web-vitals]

Work Experience

DataBase Programmer **TOV Group Veneto**

April 2015 - up to now | Ukraine

- Microsoft SQL servers 2008-2019 (setup, configuration, backUP, management)
